

UK-Turkey Renewable Sector Campaign (Webinar Series) “Future Trends in the UK” 07 July 2021

The Department for International Trade (DIT) is delighted to invite you to the first virtual event of UK-Turkey Renewable Sector Campaign Webinar Series: Future Trends in the UK

The UK has world-leading capability across the breadth of hydrogen applications in addition to production of electrolyzers and hydrogen fuel cells. As the UK plans to establish itself as a global leader in battery technology, it is estimated that the battery supply chain would contribute £12 billion to the UK economy by 2025. This online event will highlight the UK’s capabilities in these topics delivered by guest speakers from leading renewable energy companies.

Why you should attend?

- To learn about the new trends in UK’s renewable energy sector and meet with British companies to explore areas of collaboration
- To gain an insight into the latest technological advances in the UK renewable energy sector with examples on best practices and lessons learned

Who should attend?

Turkish industries, businesses, government and public bodies focused on new renewable technologies and interested in learning more about UK’s expertise: hydrogen practices, storage technologies and green aviation.

Date: 7 July 2021

Time: 13.00 pm – 15.00 pm (TR)

To register:

The closing date for registration is 5th of July 2021. To register please get in touch with:

ipek.alparslan@fcdo.gov.uk
guliz.kiyamaz@fcdo.gov.uk

Registration fee: Free of charge. Please note that registration is mandatory.
